Alaaeddine Knani

Senior Offensive Security Engineer Penetration Testing • Purple Teaming • Vulnerability Research • DFIR

Location: Tunis, Tunisia **(open to EU relocation)** **Phone:** (+216) 26 909 519 **Email:** knaniaalaeddine@gmail.com
LinkedIn: linkedin.com/in/knani-alaaeddine-b99b30189 **GitHub:** github.com/FOLKS-iwd **Web:** folks-iwd.github.io

PROFILE

Author of **6 published zero-day CVEs** affecting plugins with **2M+ active installs**. Senior Offensive Security Engineer leading pentesting, purple-team, and TIBER-EU programs at **ODDO BHF** (banking, ISO 27001). Active bug bounty researcher on **Intigriti**, **YesWeHack**, and **Google OSS VRP** with **50+ accepted reports** including critical- and high-severity findings. 6x national/regional CTF champion. 5+ years across offensive security, DFIR, and detection engineering. Trilingual (Arabic, **French**, English); **open to EU relocation**.

EXPERIENCE

Senior Offensive Security Engineer **Mar 2023 - Present**
ODDO BHF, Group Cybersecurity *Tunis, Tunisia (group-wide scope)*

- Lead 20+ penetration tests annually across banking applications, Active Directory, network, and APIs; identify critical vulnerabilities in production payment systems before threat actors do.
- Plan and execute purple-team engagements and TIBER-EU adversary simulations using C2 frameworks (Cobalt Strike, Sliver); author and tune 150+ detection rules in **IBM QRadar** and **CrowdStrike Falcon**, closing coverage gaps against MITRE ATT&CK.
- Investigate and contain 30+ security incidents annually (memory, disk, and malware forensics with Volatility and KAPE); reduced mean time to respond from 8h to under 4h.
- Perform secure code review and SAST (Checkmarx, Semgrep); mentor 2 junior analysts on offensive methodology, building the team's internal pentest capability.

Cybersecurity Consultant (Freelance) **Mar 2021 - Present**
Independent, per-client engagements *Remote*

- Deliver 15+ offensive security assessments annually (web, mobile, API, infrastructure) for fintech, SaaS, and e-commerce clients; translate technical findings into executive-level risk reports.
- Average 10+ critical/high findings per engagement with 95%+ remediation adoption rate; provide retesting and incident-response support.

SECURITY RESEARCH

Discovered and responsibly disclosed **6 zero-day vulnerabilities** in WordPress plugins (**2M+ combined installs**) via coordinated disclosure (Patchstack, Wordfence). Active bug bounty researcher on **Intigriti**, **YesWeHack**, and **Google OSS VRP** with **50+ accepted reports** including critical- and high-severity findings in production SaaS and e-commerce platforms. Conference speaker: "Hunting 0-Days in the WordPress Ecosystem."

- **CVE-2025-68999:** Second-order SQL injection in Happy Addons for Elementor (400K+ installs), CVSS 8.5 High
- **5 additional CVEs** in ElementsKit (2M+), Essential Addons (2M+), Royal Elementor, and ProfileGrid: Stored XSS and IDOR, CVSS 5.3-6.4

AWARDS

6x 1st Place in MENA CTF competitions (CSAW MENA Finals 2024, CyberTek 2025, SPARK 2024, Al-Farahidi 2023, CyberTalents 2020, NCC 2020) • **5th Worldwide**, Securinets CTF 2020

CERTIFICATIONS

eWPTXv3 (INE, 2025) • **eAIS** (INE, 2026) • **CAPenX** (2026) • **eCTHP** (INE, 2026) • **eCDFP** (INE, 2026) • **CBTeamerX** (90%, 2026) • **C-AI/MLPen** (100%, 2026) • **CMPen-Android** (2025) • **CDAPen** (2026) • **SC-900** (Microsoft, 2026) • **ISO 27001:2022 Lead Implementer** (PECB, 2023)

EDUCATION

Engineering Degree, Network Security, Tek-Up University, Tunis (evening program) 2022 - 2027 (expected)
B.Sc, Computer Networks, ISITCom Sousse 2018 - 2021

TECHNICAL SKILLS

Offensive: Penetration Testing (Web, Mobile, API, Network, AD) • Vulnerability Assessment • Red Teaming • Social Engineering • OSINT • Secure Code Review
Blue / DFIR: Adversary Simulation • Detection Engineering • Threat Hunting • Incident Response • Digital Forensics
Tooling: Burp Suite • Cobalt Strike • BloodHound • Nessus • Semgrep • Checkmarx • Volatility • KAPE • Nuclei • ffuf
Dev: Python • Bash • PowerShell • Docker • Git | **Frameworks:** ISO 27001 • OWASP • PTES • TIBER-EU • MITRE ATT&CK
Infra: Linux • Windows • Active Directory • Azure AD • AWS | **Languages:** Arabic (Native) • French (Bilingual) • English (Bilingual)
